

November 17, 2020

Dear Residents of Bridgepark Manor,

Due to a number of tenants testing positive for the COVID-19 virus, Bridgepark Manor Inc. will extend the suspension of all dining room services and activities to coincide with the provincial governments Critical Code Red regulations until December 18<sup>th</sup>.

The dining room staff will continue to bring your meals to your unit.

The use of all the public areas will be discouraged until December 18<sup>th</sup>, this includes the lobbies, multipurpose rooms, libraries, and exercise/games rooms.

Please **limit** your trips outside of the building to **essential** appointments. Your designated family caregivers may still enter and bring you essential items. Your designated family caregivers must wear their masks throughout your entire visit in your unit. If you do not have family to shop for you and need Bridgepark Manor to shop for your essential groceries, please contact the front desk.

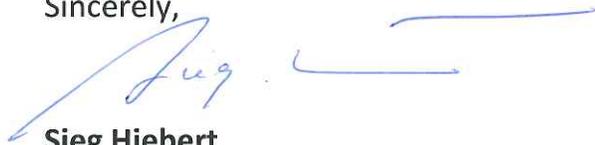

Please self-monitor yourself for symptoms regularly and if you have any symptoms please call health links and advise the front desk of your situation **immediately**.

Please also remember to use a mask when leaving your unit and wash your hands with warm soapy water often.

Physical distancing from potential contacts and handwashing remain the best option for managing the spread of this virus and reducing the burden of disease and impact on limited health care resources.

Thank you for your cooperation in these challenging times.

Sincerely,

**Sieg Hiebert**

Chief Executive Officer

**Bridgepark Manor Inc.**
